**P. 7-11**

MEASURE BY  
MODEL# CHARTS

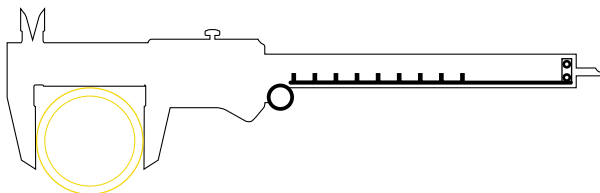

**P. 12-15**

SCOPE SIZE  
MEASUREMENT CHARTS

There are three simple ways to measure your scope to find the right fit: Using calipers, a ruler or our scope model# chart (Pages 7-11).

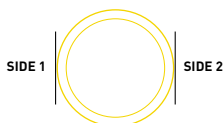

## 1. MEASURE BY CALIPERS

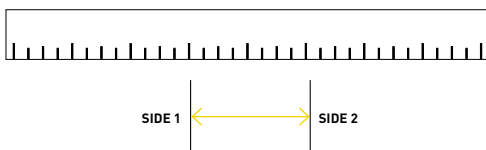

Use the calipers to measure the outside edge of the scope housing on both the eye piece and objective. You can measure in inches or millimeters.

Use your measurements and select the style of cover you want on the Butler Creek® Measurement Chart on pages 10-11. Find the size that is closest to your measurements to get the best-fitting scope cover.

## 2. MEASURE BY RULER

Stand your scope up on a piece of paper. Mark a line on each side of both the eyepiece & objective lenses.

Use a ruler to measure the distance between the lines of each lens to determine the size of scope cover you need.

Use your measurements and select the style of cover you want on the Butler Creek® Measurement Chart on pages 10-11. Find the size that is closest to your measurements to get the best-fitting scope cover.

## 3. MEASURE BY MODEL CHART

MODEL# CHARTS ARE LOCATED ON PAGES 7-11.

\*If your scope falls between two sizes, choose the smaller size for the best fit. A piece of electrical tape around the eyepiece or objective can also help you achieve the perfect fit.

## ELEMENT®

- Durable heavy polymer cap, flexible rubber housing and steel hardware
- Multi-position caps open vertical or lock down flat
- Black & clear inserts to customize between solid, see-thru or data disk
- Flex-fit sleeve creates airtight custom fit

## FLIP-OPEN®

- Waterproof & airtight
- Custom fit for most scopes
- Silent, "instant action" lids pop open at the touch of a thumb
- Performs from -40°F to 120°F

# MULTIFLEX®

- Flexible collar provides tight fit for multiple scope sizes
- Waterproof & airtight
- Custom fit for most scopes
- Silent, "instant action" lids pop open at the touch of a thumb
- Performs from -40°F to 120°F

# BLIZZARD™

- Ideal for extreme weather conditions – snow, rain, dust/sand
- Creates weather-resistant seal
- Best light transmission of any see-through cover
- Works for both objective or eye lens

## BIKINI®

- Moisture & dustproof seal
- One-piece design
- Quick clearing
- The Bikini® cover fits all sizes and makes of riflescopes (up to 62mm)

## TINI BIKINI®

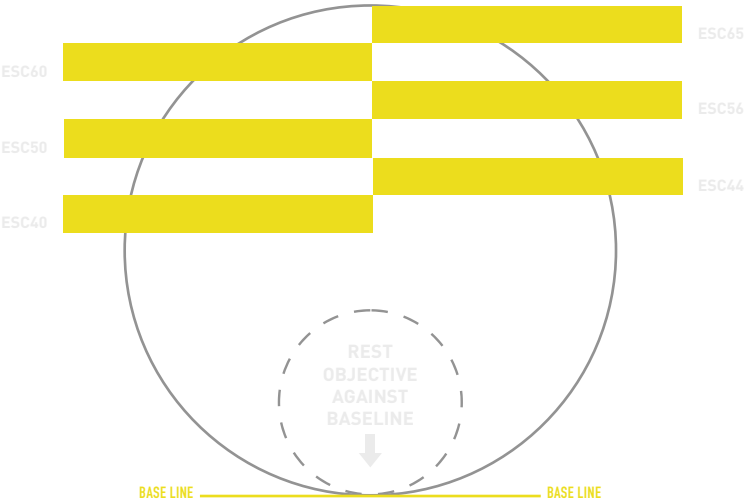

- Moisture & dustproof seal
- One-piece design
- Quick clearing
- The Tini Bikini® cover fits all sizes and makes of pistols and red dots (up to 38.1mm)

# ELEMENTS® – OBJECTIVE & EYEPiece

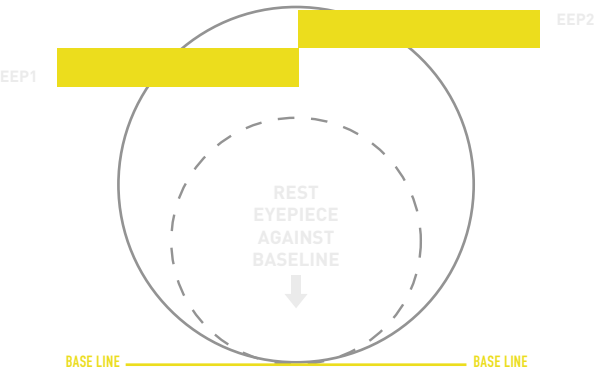

Elements Scope Covers have specific models for both the objective and eyepiece of your scope, so each lens must be sized separately.

Place the OBJECTIVE of your scope on the baseline to determine the model number that fits your scope.

## OBJECTIVE

## EYEPiece

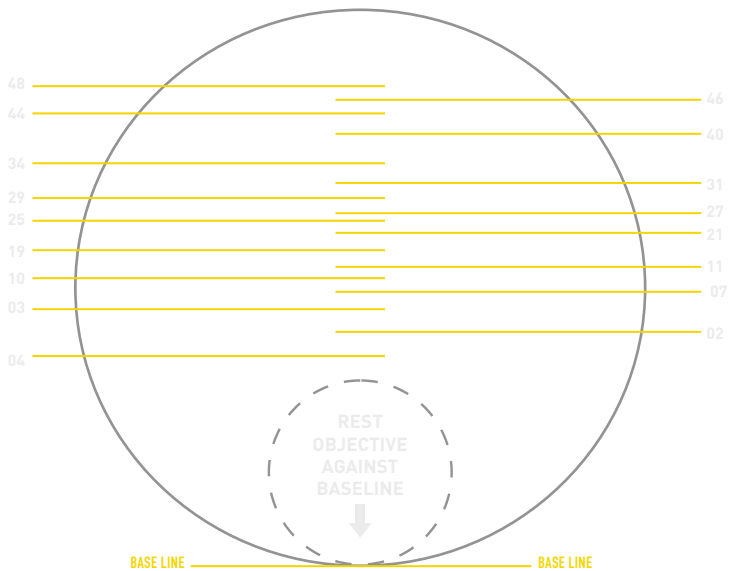

# FLIP-OPEN® – OBJECTIVE

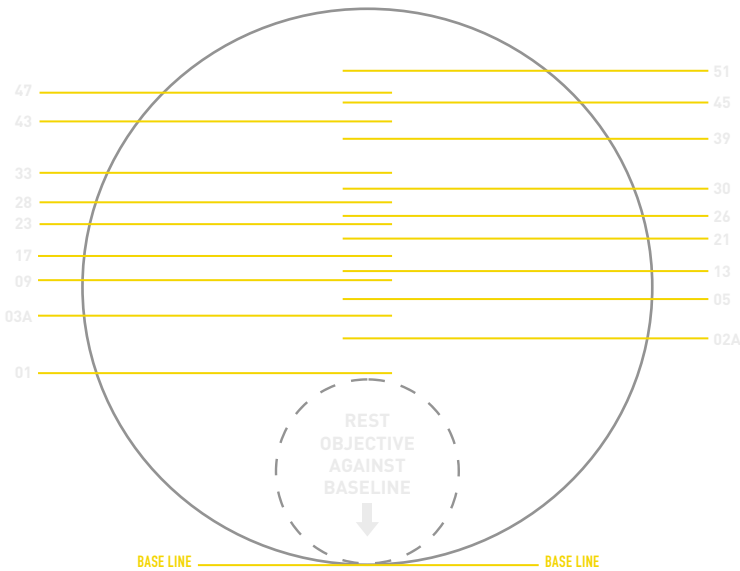

Flip-Open® Scope Covers have specific models for both the objective and eyepiece of your scope, so each lens must be sized separately.

Place the OBJECTIVE of your scope on the baseline of Set A and Set B to determine the size number that fits your scope.

OBJECTIVE: SET A

OBJECTIVE: SET B

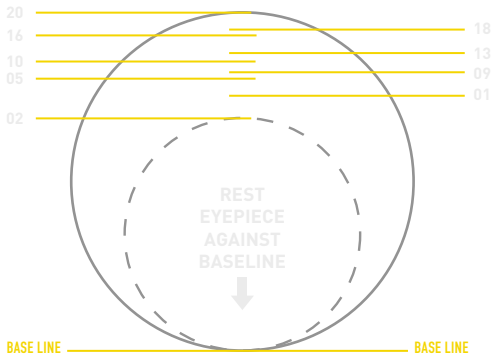

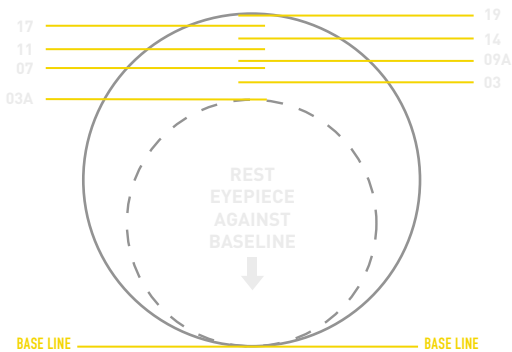

## FLIP-OPEN® – EYEPIECE

Place the EYEPIECE of your scope on the baseline of Set A and Set B to determine the size number that fits your scope.

### EYEPIECE: SET A

### EYEPIECE: SET B

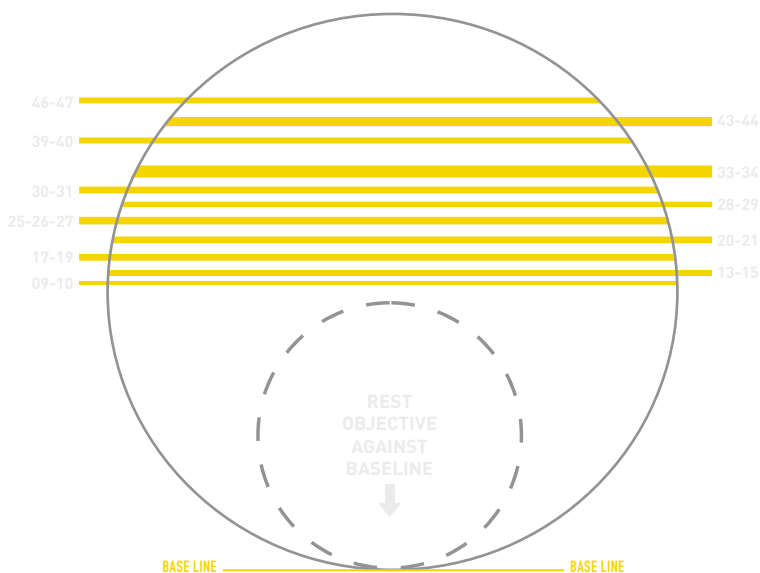

## MULTIFLEX® – OBJECTIVE & EYEPIECE

MultiFlex® Scope Covers have specific models for both the objective and eyepiece of your scope, so each lens must be sized separately.

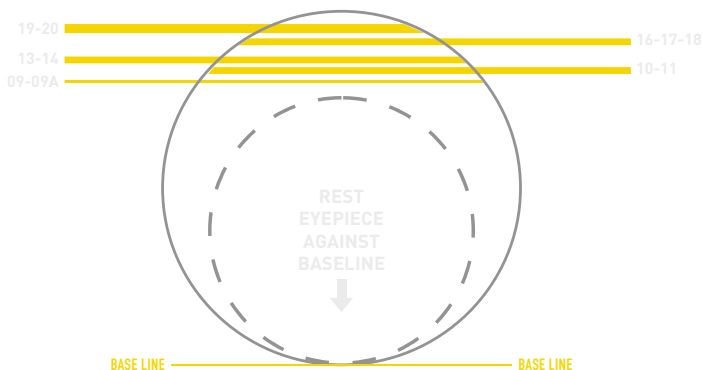

Place the **OBJECTIVE** and the **EYEPIECE** on the baseline of their respective charts to determine the model number that fits your scope.

If the top of your objective or eyepiece is in a yellow bar, use that model. If not, we do not have a MultiFlex® Scope Cover that fits your optic. Please try our Flip-Open® Scope Covers, which come in a wider array of sizes.

### OBJECTIVE

### EYEPIECE

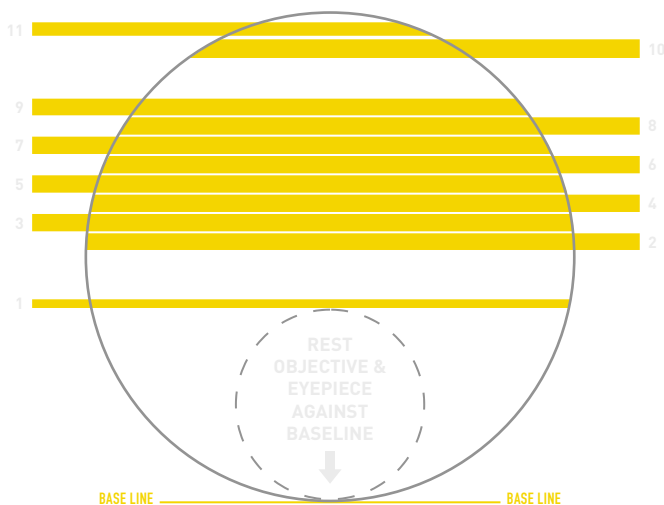

## BLIZZARD™ – OBJECTIVE & EYEPIECE

Blizzard™ Scope Covers are designed specifically for adverse weather conditions. They are designed to fit both the objective and eyepiece of your optic.

Place both the EYEPIECE and OBJECTIVE of your riflescope on the base line. Choose the model closest to the top of the optic.

If the top of your objective or eyepiece is not in a yellow bar, we don't have a Blizzard™ Scope Cover that fits your optic. Please try our Flip-Open® and MultiFlex® Scope Covers, which come in a wider array of sizes.
